

ANAM SHAIKH

B.Sc. Data Science Graduate

anamshaikh0306@gmail.com | +91 9769839321 | [linkedin.com/in/anamshahidshaikh](https://www.linkedin.com/in/anamshahidshaikh) | github.com/anamsk147

Data Science graduate with ML internship experience, a published research paper, and Oracle certifications. Proficient in Python, SQL, Power BI, and Apache Spark. Seeking Data Analyst / Business Analyst / Data Scientist roles.

EDUCATION

Qualification	Institute	Board / University	Year	% / CGPA
B.Sc. Data Science	NMIMS, Navi Mumbai	NMIMS University	2025	3.67 / 4.0
HSC (XII)	Swami Vivekanand, Koparkhairne	Maharashtra State Board	2023	56.17%
SSC (X)	Anjuman-I-Islam, Vashi	Maharashtra State Board	2021	86.60%

WORK EXPERIENCE

AI / ML Intern

May 2025 – Jul 2025

Cothon Solutions

- Built and optimised ML pipelines (classification & regression) using Python, scikit-learn, and Pandas; improved model performance through feature engineering and cross-validation.
- Developed data visualisation dashboards to communicate model insights to non-technical stakeholders.

KEY PROJECTS

EV Charging Demand Prediction & Grid Load Analysis

Jan – Mar 2026

Python · scikit-learn · Matplotlib · Seaborn

- Engineered 10+ features and built ML models for EV demand forecasting; EDA revealed peak demand patterns and produced grid infrastructure visualisations for city planners.

Fraud Detection Using Apache Spark

Sep – Nov 2025

Apache Spark MLlib · Hadoop · Scala · R

- Achieved 98% accuracy with Random Forest on distributed transaction data; optimised pipeline for real-time fraud analysis at scale.

Frequent Itemset Mining for Shopping Cart Data

Sep – Nov 2025

Python · Apriori · FP-Growth

- Uncovered purchasing associations using Apriori & FP-Growth; improved recommendation accuracy by 22% (RMSE) and cut data size by 35% via preprocessing.

RESEARCH

Data-Driven Risk Management for Health Insurance in India

Published — BVISMR Conference, Nov 2023

- Surveyed 123 respondents; demonstrated ~13% profit gains and 12.7% higher Mumbai premiums; forecasted 2024–2029 risk-adjusted trends using Python and statistical models.

TECHNICAL SKILLS

Languages	Python, R, SQL, HTML	BI & Viz	Power BI, Tableau, Excel, Data Modelling
ML / Stats	Regression, Classification, Time Series, Forecasting, Feature Engineering	Libraries	Pandas, NumPy, scikit-learn, Matplotlib, Seaborn
Databases	MySQL, MongoDB	Tools	VS Code, Git, GitHub, Jupyter, Google Colab, Apache Spark, Hadoop

CERTIFICATIONS & ACHIEVEMENTS

Certifications

Oracle OCI Data Science Professional — Nov 2025
Oracle OCI AI Foundations Associate — Oct 2025
Python & SQL (Basic) — HackerRank — Sep 2025
Data Science & ML — Udemy — Dec 2024
Data Analytics Essentials — Cisco — Apr 2024

Achievements & Activities

Finalist — NMIMS Startup Pitch Competition, Jan 2026
HP Power Lab 2.0 — Sep 2025
TATA Crucible Campus Quiz — Sep 2025
Creatives Team — Vishleshan, NMIMS, Feb–Mar 2025
Languages: English, Hindi, Urdu
